PowerWire

# Thank-you!

A big thank you to everyone who participated in our job titles survey! This month, we need your help again. Let us know where you're reading PowerWire from by completing the survey below. Your input is invaluable to us!
We have some important news regarding our domain name. Due to the requirement for a European address for powerwire.eu (thanks, Brexit!), we will be transitioning to a new domain.
Stay tuned for more updates in the coming months.

# Python Database Access

In my previous article, I wrote about how to access a SQLite database and output the SQL resultset in a neat table. If you need a recap, my previous article can be found at this link.
In this article I will show you how to

access a DB2 for I table, and like my previous article send the data to a table.

As we will be accessing a DB2 table, I will be using ODBC for SQL access.

# 30 Years of DB2 on i

August 2024 marks the 30th anniversary of Db2 on IBM i and its predecessor platforms – iSeries & AS/400. Those of you who follow the platform closely might think that my mathematic skills are lacking since IBM i celebrated its 35th anniversary last year in 2023. Obviously, that's a gap of 5 years.

We would like to offer all our customers an amazing buy one, get one free (BOGOF) offer on any advertising this tax year.

Take up an advert with us and we will double the length of the run and place it in both the newsletter and the website.

So come on, why not take a chance, these rates will not be offered again. We would love to hear from you with any bespoke ideas you have, Test us out, that's all we ask.

# New Survey

Over the last two months, we have held a survey on your job titles, to get a better understanding of our readers, which showed what a diverse audience you are, and we are proud to reach all parts of the community.

This time we would like to know where you are reading PowerWire from.

## Keep in touch!
